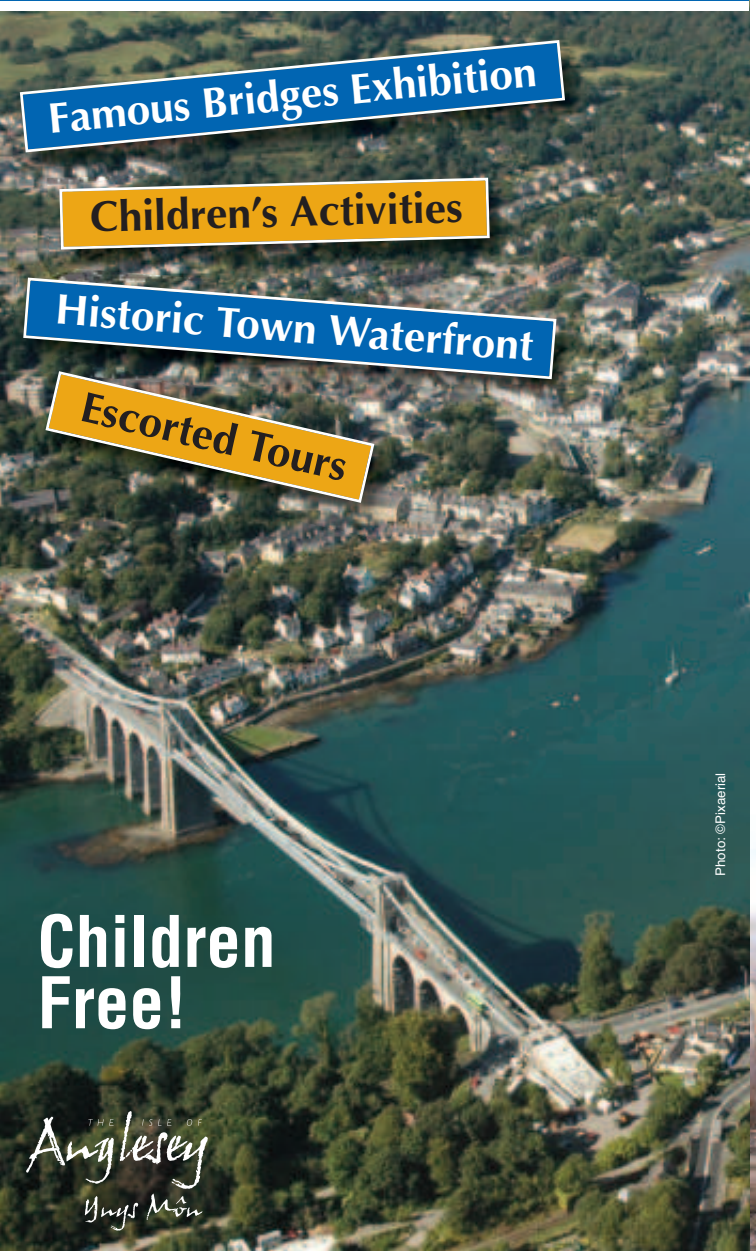
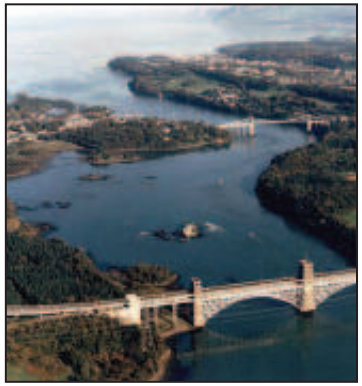
THE MENAI HERITAGE EXPERIENCE



THE MENAI HERITAGE EXPERIENCE...

Menai Bridge is dominated by its two magnificent, iconic and world famous bridges, Thomas Telford's Suspension Bridge and Robert Stephenson's Britannia Bridge, both of which span the picturesque but treacherous Menai Straits to link the Welsh mainland with the Isle of Anglesey and Ireland.



The amazing historical engineering feats of both bridges are the centrepieces of an **EXHIBITION** at the Thomas Telford Centre, created by the Menai Bridge Community Heritage Trust to relate the importance of the bridges in the world's construction history, and to show the ecology of the Menai Straits itself. Read more about this fabulous exhibition **inside this leaflet**.

And there's so much more about Menai Bridge than just its bridges to enjoy - peaceful Victorian streets, old cottages, neat terraced houses, traditional shops, a beautiful historic waterfront, a medieval church on a small island, magnificent views of the mountains of Snowdonia, and much more... come and experience fabulous and easy walks in one of Wales' most intriguing towns and in one of it's most amazing settings.
